sorry this shit page does not work without javascript

sorry this shit page does not work without javascript

How hard was that?!

Browser window showing the source code of a webpage. The address bar displays `view-source:http://thisgreatwebpage.ex`. The page content is as follows:

```
1 <html>
2 <body>
3 <noscript>
4 <div style="background:red;">sorry this shit page does not work without javascript</div>
5 </noscript>
6 </body>
7 </html>
8
```

view-source:http://thisgreatwebpage.ex

```
1 <html>
2 <body>
3 <noscript>
4 <div style="background:red;">sorry this shit page does not work without javascript</div>
5 </noscript>
6 </body>
7 </html>
8
```

It was exactly this easy!!

Still don't get it?

Contact me for a **free** one-on-one tutoring!
